

Circulation & Vein Support

Item 901453 (60 capsule • 30 servings)\$22.90
Item 902169 180 capsule • 90 servings)\$59.90
Item 902170 (360 capsule • 180 servings)\$109.90

SUGGESTED USE Consume two or more capsules daily or as recommended by a health care professional. As with any targeted benefit product, this formula is most effective when used in conjunction with a healthy, balanced diet along with a high potency, comprehensive multi-vitamin-mineral supplement from **ANDREW LESSMAN'S COMPLETE™** family of formulas (*Complete - Item 8100, Maximum Complete+ - Item 8200 or Ultimate Complete - Item 8300*). For answers to questions about the use of this or any other products from Andrew Lessman's ProCAPS LABORATORIES call **800.808.7311**.

CAUTION Do not use this product if pregnant or lactating.

To maintain maximum potency, store tightly closed in a cool, dry, dark place. Do not refrigerate.

UNSURPASSED.
Purity. Quality. Integrity. Effectiveness.

CIRCULATION & VEIN SUPPORT™

FOR HEALTHY LEGS

DIOSMIN
HESPERIDIN
RUTIN
QUERCETIN
GRAPE SEED

DIETARY SUPPLEMENT

Andrew Lessman's CIRCULATION & VEIN SUPPORT™ is an all-natural botanical blend of potent bioflavonoids designed to support the health of the circulatory system, particularly the veins and capillaries of the peripheral circulation in the legs. Because of their location in your lower extremities, the circulatory tissues in the legs are comprised of perhaps the hardest working blood vessels in your entire body. Not only must they deliver nutrient-rich oxygenated blood to your legs, but they must then battle against gravity to transport deoxygenated blood and waste products back to your heart and internal organs for cleansing. It is this difficult journey back to the heart and internal organs that stresses the tissues of the legs. As we age, we become more aware of the uncomfortable burden that gravity can place on circulation in our lower extremities. Factors such as stress, prolonged standing, or high temperatures can cause our legs to feel heavy. This unique natural formula is specifically designed to combat the natural enlargement of the veins in the legs by helping to support and maintain the health and tone of the veins and capillaries in your legs, and to help reduce the sensations of heaviness that result from common, everyday conditions.

This formula contains a high potency blend of special bioflavonoids, with particularly high levels of Diosmin and Hesperidin, to target circulatory tissues. Bioflavonoids have a long history of providing support for delicate capillaries, and Diosmin has been used in Europe for over 30 years where numerous clinical studies have demonstrated its benefits for the maintenance of blood vessel tone and the support of healthy circulation in the legs. In addition to supporting overall capillary health, Diosmin also possesses strong anti-oxidant properties. To this uniquely balanced bioflavonoid blend, we also add Grape Seed extract because of its powerful anti-oxidant benefits that support healthy circulation. Just as its name describes, **Circulation & Vein Support** is specifically designed to provide the much-needed natural support for maintaining healthy circulation in the veins and capillaries of the legs.
