

SAFETY RECALL

Progressive International Corporation Voluntarily Recalls One Handed Jar Lifter

The One Handed Jar Lifter is designed for use with one or both hands grabbing the handles of the Jar Lifter whose tongs grip the jar as illustrated below. The handle can detach over time causing the Jar Lifter to lose its grip on the jar. As a result, the user could drop the canning jar thereby posing a laceration hazard to the user.

The One Handed Jar Lifters affected were sold from February 22, 2012 to October 10, 2012.

Consumers should immediately stop using this One Handed Jar Lifter and contact Progressive International Corporation to receive a free replacement Jar Lifter.

To obtain your free Jar Lifter, please call Progressive International Corporation Customer Service toll free at **1-800-426-7101**, from Monday through Friday between 9:00am and 5:00pm Pacific time, or, email at jarlifter@progressiveintl.com. You can also visit Progressive's website at www.progressiveintl.com for additional information.

Post until June, 2013
