TIMEPIECE WARRANTY & INSTRUCTIONS

LIMITED WARRANTY

THE FACET COLLECTIVE INC guarantees this watch for a period of three years from date of purchase against any defects in workmanship and materials. This warranty does not apply to normal wear or abuse and excludes batteries, case, strap, crystal and bracelet. This warranty is void if the watch has been damaged by unqualified service, accident, or other means not related to the original materials or workmanship.

CARE & CLEANING

Water resistant watches are fitted with rubber seals that require replacement over time. To insure that the watch maintains its water resistant feature, it is suggested that it be inspected and cleaned by a qualified watch technician or jeweler every two or three years.

The exterior surfaces of your watch may be cleaned with a soft jewelry polishing cloth to maintain its luster. If the watch requires deeper cleaning, a mild soap & water solution may be used with a soft cloth or soft bristle brush.

WATER RESISTANCE

If your watch is water resistant, the case back will be marked with the level of protection provided.

Examples:

3ATM Water Resistant - This indicates that the watch is protected against submersion to a depth of 99ft

Moisture Resistant - This indicates your watch is protected against exposure to water or moisture, such as a shower or rain, but should not be submerged in water or liquid.

CUSTOMER SERVICE

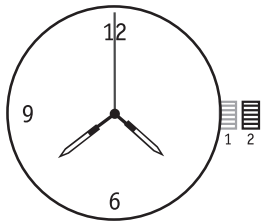

Should you have questions about your product or require a repair or adjustment, you may contact our service provider at:

UNIVERSAL WATCH REPAIR
177 S. OLD WOODWARD AVE
BIRMINGHAM MI 48009

TEL: (248) 723-5400

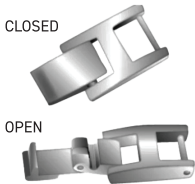

email: service@universalwatch.net

WATCH SETTING INSTRUCTIONS

Pull out the crown until it stops. This is Position 2 (refer to figure to the left). Turn crown either direction until the desired time is set. After setting is completed, push the crown in completely. This is Position 1. Leave in this position to run the watch.

USING THE FOLD OVER CLASPS

Your watch will normally arrive with one fixed fold over clasp plus two additional clasps that may be individually removed to achieve your desired length. Simply pull up on the top/cover to open. This will allow you to unattach one end of the band from the other to remove or put on your watch. Additionally, you may remove one or two of the clasps. Note: Additional clasps may be available for purchase by contacting our service provider

BUTTON CELL BATTERY NOTICE

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate. Even used batteries may cause severe injury or death. Call a poison control center for treatment information.

Battery Type: SR626SW

Battery Voltage: 1.55v

BUTTON CELL BATTERY NOTICE

Non-rechargeable batteries are not to be recharged.

Do not force discharge, recharge, disassemble, heat above 100 degrees F or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Do not force discharge, recharge, disassemble, heat above 100 degrees F or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

BUTTON CELL BATTERY NOTICE

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries

WARNING

INGESTION HAZARD: DEATH or serious injury can occur if ingested.

A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.

KEEP new and used batteries **OUT OF REACH OF CHILDREN**

Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

For treatment information call the National Battery Ingestion Hotline: 1 (800) 498-8666
