

## Orange Ice Spritz

### Ingredients:

1 cup orange juice

1 ¼ cup prosecco

2/3 cup Aperol

1/3 cup soda water

Orange slices, for garnish

### Directions:

-Freeze the orange juice into cubes. When frozen, add the cubes to the container, making sure not to overfill (there's a maximum fill line inside the container). Put the motor attachment on top and twist counterclockwise to lock. Turn on and turn into orange ice!

-Divide the prosecco, Aperol, and soda water into 4 ice-filled glasses. Top each glass with the shaved orange juice ice and serve with fresh orange slices!
