

USE AND CARE GUIDE

Kitchen HQ Elite Non-stick 12" Cast Iron Pan

Thank you for purchasing our Kitchen HQ Elite Cast Iron 12" Pan. The pan is made of cast iron with a non-stick interior and a silicone polyester exterior. With Kitchen HQ Elite Non-stick you get the consistent heating and browning of traditional cast iron, with the ease of cleaning you have with non-stick cookware.

- Cast iron construction.
- Non-stick interior, for easy clean up.
- Silicone polyester exterior.
- Measures 12" Diameter.
- Dishwasher Safe
- Recommend use only silicone, nylon and wood tools on interior surface. No metal utensils as this can cause damage to the non-stick interior.
- Heat safe to 500°F.
- BBQ, oven and all stove tops, induction included.
- Do not place in microwave.
- Use potholders when using on BBQ, stove or in oven to prevent burns and avoid injury.
- When using on glass top stoves please make sure stove is clean and that you wash and dry the cookware thoroughly so there is no risk of damaging the stove or the cookware.

- Please make sure you lift the cookware and not drag across the stove as this could cause damage to stovetops.
- Made in China.
