

PULL LIGHT™

READ ALL INSTRUCTIONS AND WARNING BEFORE OPERATING

BATTERY INSTALLATION

LOOSEN SCREW AND REMOVE COVER

INSERT (3) AAA BATTERIES

REPLACE COVER AND TIGHTEN SCREW

TOOLS NEEDED (NOT INCLUDED)

SCREWDRIVER

Care:

The pull light is weather-resistant, but not waterproof. Do not leave outside during extreme weather. Do not submerge in water.

If necessary, wipe pull light clean with a damp, soft cloth.

Remove batteries before longterm storage.

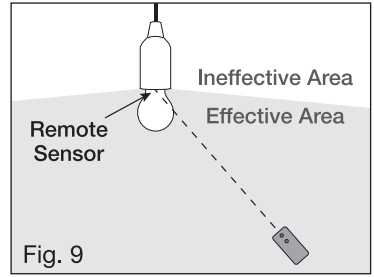

Warning: When using outdoors, hang in a dry location and do not use in damp or extreme temperature conditions.

USING THE REMOTE

THE PULL LIGHT MUST BE MANUALLY TURNED ON TO USE WITH THE REMOTE (see Manual Operation section).

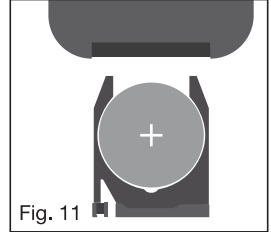

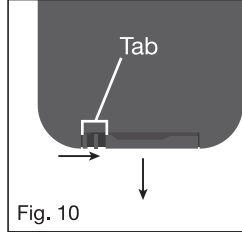

Before first use, pull the plastic battery strip from the remote to activate battery.

The remote sensor is inside the bulb, on the underside of the battery compartment (fig. 9). Therefore, it is best to aim the remote up towards the light rather than down from above. Otherwise, the sensor may not receive the remote signal. The remote can control the light from up to 15 feet away.

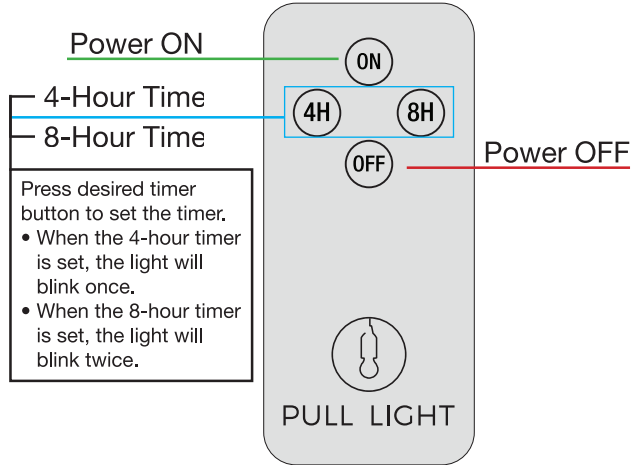

REPLACING REMOTE BATTERY

Using your fingernails, slide battery tray tab to the right and slide tray out in a downward motion to remove from remote (fig. 10). Recycle old battery and replace with new CR2025 button cell battery. Be sure to install new battery into battery tray according to correct polarity (fig. 11). Reinsert battery tray.

WARNINGS

- Keep batteries out of reach of children.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-Cd, Ni-Mh, etc.) batteries.
- Do not expose batteries to extreme heat.
- Please recycle old batteries. Do not dispose with other household waste.
- Not for use by children.
- Choking hazard: contains small parts.
